RE: NJDEP- Freshwater Wetlands and Flood Hazard Area Permit Applications

Passaic River Cleaning Associated with Springfield Park
Within Long Hill Township (Morris County) and
Berkeley Heights Township (Union County), NJ
Our File #2000F026
Certified Mail RRR

Dear Property Owner:

This letter is to provide you with legal notification that applications for a Freshwater Wetlands (FWW) General Permit, and FHA Verification will be submitted to the New Jersey Department of Environmental Protection (NJDEP), Division of Land Resource Protection (DLRP) for the development shown on the enclosed plan(s). A brief description of the proposed project follows:

The Union County Improvement Authority (UCIA) is proposing to remove debris and obstructions, such as fallen trees, branches, stumps, and other materials, from a section of the Passaic River located along the border of Berkeley Heights Township (Union County) and Long Hill Township (Morris County), NJ. This river maintenance effort is part of a broader park improvement project on the adjacent property at 735 Springfield Avenue, Berkeley Heights, which includes the construction of new playgrounds, walking trails, boat ramps, pavilions, outdoor exercise equipment, an amphitheater, and more. The primary goal of the river cleaning is to ensure safe and accessible recreational use of the Passaic River for future park visitors.

The complete permit application package can be reviewed at either the municipal clerk's office in the municipality in which the site subject to the application is located, or by appointment at the Department's Trenton Office. The Department of Environmental Protection welcomes comments and any information that you may provide concerning the proposed development and site. Please submit your written comments within 15 calendar days of receiving this letter to:
